

Frequent Trader ID field displayed on C2 Trade Match (CTM) terminal effective February 20, 2018

Overview

Effective **Tuesday, February 20, 2018**, a new Frequent Trader ID field will be displayed on the C2 Options Exchange (C2) CTM terminal trade browse screen. Currently this field is for display purposes only as the Frequent Trader ID Program is not yet in effect on C2. It is being displayed on the C2 CTM terminal to ensure consistency with the look and feel of the terminal display on both C2 and Cboe Options Exchanges. The Frequent Trade ID field is scheduled to rollout to the Cboe Options Exchange CTM terminal in the first quarter of 2018.

Additional Information

Questions may be directed to the Cboe Operations Support Center (OSC).

We appreciate your continued support and will work hard every day to keep earning your business by powering your potential to stay ahead of an evolving market. As always, we are committed to our customers and to making markets better as your partner in trading.
