

Removal of Customer Indicator from C2 Non-Complex Market Data Feeds

Reference ID: C2018082102

Overview

Effective **Friday August 31, 2018**, the Multicast PITCH and TOP market data feeds for the Cboe C2 Options Exchange (C2) will no longer include the Customer indicator. This change will only be implemented for the simple book and will not impact the complex market data feeds.

Technical Details

- The *Customer indicator* field will be populated with a blank value on the `Add Order` message in the C2 Options Multicast PITCH.
- The *Bit Fields* field will be set to zero in the C2 Multicast TOP feed, indicating no customer interest.

For more information, refer to the specification documents listed below.

- [US Options Multicast TOP Specification](#)
- [US Options Multicast PITCH Specification](#)

Testing Opportunities

The new configuration for the market data feeds is currently available for testing in the C2 certification environment.
