

October 5, 2018

Please be advised that effective on **Friday, October 12, 2018** the following Index value will begin disseminating over the following CSMI feed.

Description	Symbol	Feed
Ameribor [®] Unsecured Overnight Rate	AMBOR	CSMI Main Feed

Overview:

The Ameribor[®] Unsecured Overnight Rate (AMBOR) is calculated at the close of each trading day and is the volume-weighted average rate of that day's transactions in the Ameribor[®] unsecured loan market of the American Financial Exchange (AFX). The Ameribor[®] interest rate is denoted as a 360-day annualized percentage rate to the fifth decimal.

AMBOR is calculated at the close of each trading day and disseminated at approximately 2:30 a.m. CT on the business day following its calculation.

The AFX is an electronic exchange for direct lending and borrowing between American financial institutions. AFX trading hours are from 7:00 a.m. to 5:00 p.m. CT. AFX currently has more than 100 Members representing 48 States, the District of Columbia and Puerto Rico. Members include banks and non-bank financial institutions such as broker-dealers, insurance companies, private equity firms, hedge funds, futures commission merchants (FCMs), asset managers and finance companies. More than \$225 billion has been successfully transacted on the AFX since it opened on December 11, 2015.
